

USA_Texas_Fort Worth(Central) Trinity Park Duck Pond

Trip Profile

Topic	Details
Trip Name	<i>USA_Texas_FortWorth_TrinityParkDuckPond</i>
Short Description	Park pond with many waterfowl
Web Site	
Contributor/email	Bill Webb; info@billwebbphoto.com
Travel Time	35 mins from Dallas, 5 mins from downtown Ft. Worth
Date trip taken	several
Points of Interest	
Address for Mapping Software	2200 Trinity Park Dr, Fort Worth, TX takes you to a paved parking lot across the street from the pond.
Restrictions / Safety Issues	Public city park. Usually many people around. Normal personal safety precautions should be followed
Entry Fee	none
Lodging Suggestions	Close-in so not really needed but there are several lodging choices in the area.
Dining Suggestions	There are MANY great eating places in the immediate and surrounding area.
Best Shooting Time of Day	Morning (10:00-ish) or afternoon (3:00-ish) in Fall and Winter
Primary GPS Coordinate	32.747459070772635, -97.35129316943824

Special notes

ID	Note
1	Many different waterfowl are here: Wood Duck, Ring-necked Duck, Scaup, and more.
2	Even though the pond keeps the subject from getting too far away, you can still use long lenses (600mm) to great effect.
3	The light on the water is usually great as it picks up the colors above (sky and trees) and along the banks (people's clothes, etc.)
