

Framing Requirements Offered at Local Craft Stores

March 8, 2022

This information was acquired by visiting and speaking to a representative in the framing departments at the Hobby Lobby and Michaels in Lewisville on March 8.

Michaels

Their sales are Buy One, Get Second One 50%. Michaels offers coupons on their website for full price items which you can pull up on your cell phone. If you are on their subscriber list, you may have other coupon offers.

Studio Decor

16x20	\$42.99
11x14	\$34.99

They have a line in *Studio Décor* frames called *Belmont*. It is sold with plexiglass/acrylic.

Belmont

16x 20	\$27.99
11x14	\$19.99

There is a framing hardware section where you can find a hanging wire.

I checked custom framing prices. You should consider *Frame Destination*.

Hobby Lobby

When I checked several weeks ago, the Lewisville Hobby Lobby had a 16x20 frame meeting our 1" requirement. It was not available today at the store in Lewisville. Check your local Hobby Lobby.

50% sales on framing supplies are offered every other week. (This is what I was told.)

11x14	\$19.99
16x20	?

This week's ad is advertising 50% off custom framing (frames only). I did not have them estimate a custom framing cost. Generally, this is more expensive than other alternatives.

I have been informed that a sheet of 16x20 plexiglass/acrylic is \$2.99 at Hobby Lobby.

Hope this information helps as you frame your images.
