MAP ICONS:

Most recently used map tool Open Map Icons Map Settings

-  Places red pin in your current location
-  Manually move red pin to any location
-  Undo to return to previous pin location
-  Redo to return to new pin location
-  Hides top and bottom bars to expand map view
-  Swap positions of the red and black pins
-  Extends the sun/moon azimuth line to help align pins with sun/moon when planning
-  Displays a blue arrow for your current location without moving pins
-  Change map type (terrain, satellite, etc.)
-  Compass - orients the map to the direction you are currently facing
-  Lock to keep map icons on the map; unlock to access icons with the + button
